Candidates for the Burlington Professorship must have an earned doctorate and an outstanding record of scholarly research and teaching in operations management. The search committee welcomes applications from scholars with diverse interests in operations and supply chain management, such as operations strategy, purchasing, planning and control, and logistics. The Burlington Professor will: (a) participate in the continued development of graduate and undergraduate programs in operations management, (b) serve in a leadership role in the operations management track of the Ph.D. program, (c) assist in placing Ph.D. graduates at major research universities, maintain an outstanding research program, (d) be highly visible in the profession through membership on editorial boards of top journals and leadership roles in major professional associations, and (e) develop contacts in the business community for the purpose of promoting and developing operations management programs in the Department of Management. Compensation will be highly competitive. Applications received by November 1, 2005 are assured full consideration.
